

Antechamber Bay Eco-Cabins, Kangaroo Island

A natural paradise between the beach and the river

So you're going to stay in the Antechamber Bay Eco-Cabins. A responsible adult should read this brochure before arriving. Here are a few tips to help you have a great holiday:

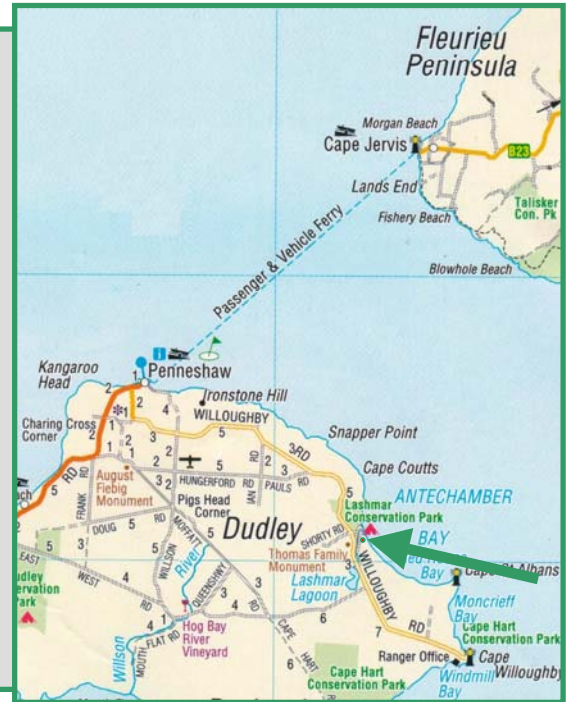

How do we get there?

On arrival in Penneshaw by ferry, drive through the town and pick up any last minute shopping.

Follow the road out of town, past the KI Tourist Centre (opposite Christmas Cove). Turn left onto the Willoughby Road; sign posted "Cape Willoughby". Follow this road for about 18 kms. Road conditions can vary so please drive carefully.

Go past the "Antechamber Bay West" sign. Another 1km further on, turn left at the "Antechamber Bay East" sign.

Follow this road left until you reach the pine log gate entrance to the Eco-cabins on the right. If you come to the car park at the end of the road you've gone 100m too far.

Where do I collect the cabin key?

The cabin key collection is arranged when you confirm your booking. If you have not arranged to collect a key, phone (08) 8293 6750.

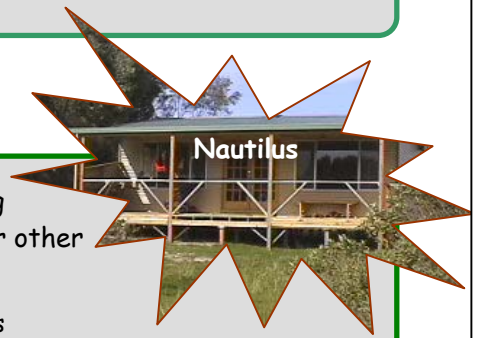

What should I bring to help me make the most of my stay?

You should bring the following items:

- Sheets, blankets/quilts
- Tissues (paper towel if required)
- Towels / hand towels
- Tea towels
- Food/Drink (rainwater is provided)
- Clothing
- First Aid Kit
- Toiletries
- Do NOT bring honey onto the Island

Consider bringing the following for other activities:

- Walking shoes
- Torch for night walks & spare batteries
- Fishing gear for beach and river
- Water equipment, eg boat, canoe
- Games, sporting equipment
- Binoculars, camera
- Beach sunshade

Nautilus

What services will we have access to?

- Only CDMA phones work on the property, public phone in Penneshaw

- Large sinks and a clothes line of sorts onsite in Amenities Centre
- Radio, stove, bbq, fridge/freezer, running water, cd player, no oven or microwave oven
- Basic cooking utensils and cutlery/crockery for eight people provided. List available upon request.
- Toilet paper, dishwashing liquid and liquid soap provided (Please use our environmentally friendly liquid soap rather than cake soap)
- Wood is provided for longer stays you can drive up the track to the wood shelter to restock

Blue Wren

REMEMBER TO TAKE THIS SHEET WITH YOU ON YOUR HOLIDAY!

What warnings and rules should I know about?

It is your responsibility to make sure you and all of the people staying in the cabin are aware of the following rules and warnings before arrival:

- No open fires are permitted on the property during Fire Ban season (1 December to 30 April)
- You are sharing a natural environment with wild animals and plants. Feel free to observe but do not interfere with them or their habitats.
- No pets are permitted on the property.
- Snakes inhabit the property. Generally they will avoid you as you must avoid them. If bitten, immobilise the limb, keep the victim calm ring 000 or 112 on your mobile phone.
- If you intend participating in any water activities, you do so at your own risk. There may be rips out from the beach and although the Chapman River is generally considered safe, you should exercise caution as it is a natural environment. Children should be supervised at all times. Alcohol and water activities do not mix.
- As a rule please respect other visitors on the property and never exceed walking speed whilst driving on the track.
- Except in designated areas in front of the cabin, always use marked paths to avoid unnecessary erosion. Please do not climb and jump from the sand hills.

Light houses and beacons visible from the beach at night include; Cape Jervis, Cape St Albans and the rocky islands directly East, known as The Pages.

| <input type="checkbox"/> Bird watching | <input type="checkbox"/> Sample the gourmet delights at the Penguin Stop Café in Penneshaw |

One definition of Eco-Tourism is; nature-based, educative and managed in a sustainable manner.

What do I need to do when I leave?

In keeping with the true meaning of Eco-Tourism we ask that you help us sustain this facility by completing the Cabin Departure Checklist in each cabin. This helps to reduce the cleaning requirements, which due to the remoteness of the area, keeps the accommodation price down.

ECO-CABIN FEATURES	
Solar lighting: We have low voltage (12 volt) halogen and incandescent globes powered by our solar array that catch free energy from the sun. A unique feature is the Night Only button that needs to be pressed before you can use the lights. This feature automatically switches off during the day to conserve energy.	Solar hot water: The solar heated water is held in recycled aluminium drums and heavily insulated.
Low voltage refrigerator: South Australian made Liemack fridge/freezer running on 12 volt power generated by our solar array. The fridge works more efficiently with food and liquid in it.	Self-composting toilets: Australian made Nature Loos. There is a fan powered by the solar array to expel odours. These loos are odourless. Please keep loo clean by using the brush provided.
Solar Array: 50% funding was received from a DEHR grant for alternative energy. The array consists of 22 panels and 4 batteries with a maximum output of 120 amps. The solar array makes up part of the amenities centre roof. Energy from the sun is collected by the panels and is converted into electricity and stored in the batteries.	Rainwater: Rainwater is collected from all buildings on the property and stored in a series of interlinked tanks that share water according to where its required on the property. Please use water sparingly.
Recycled materials: The plumbing fittings, kitchen area, much of the building wood, windows and frames are all recycled materials.	Plantation pine: Australian Cyprus pine was used for the building stumps. Cyprus is a natural white ant deterrent.
	Education: There are plans for informative signs and posters to be displayed in the amenities centre and cabins. There will also be an interpretive walk.
	Structure: Internal walls are structural plywood made from plantation pine, which has insulative properties.
